

Grow Your Brain

Scientists have been able to show just how the *brain* grows and gets stronger when you learn

'Growth is the only evidence of life'
St John Henry Newman

A 'Virtual' Taste of Spain

Salvador Dalí was a Spanish artist who made paintings, sculptures and films about the dreams he had. He painted melting clocks and floating eyes, clouds that look like faces and rocks that look like bodies. Why not take a tour around the Spanish museum that is dedicated to showcasing his weird and wonderful work?

Have An Adventure With Reading

One of the books that experts suggest every child should read before they leave school is 'Artemis Fowl'.

Artemis Fowl is a 12-year-old genius who lives in a mansion in Ireland with his bodyguard. Before the story begins, his crime lord father has gone missing along with the Fowl family's millions, and his mother has become detached from reality as a result. It has twists and turns aplenty that will keep you entertained for hours

It's so good that Disney is turning it into a movie.
